## Philips LED Adapter Rings

Ensure a successful installation for Philips H7 LED headlights. When upgrading to LED headlighting, some vehicles may need adapter rings to secure the LED bulb inside the headlamp. Philips Adapter Rings fit perfectly with Philips LED headlight bulbs. Our rings ensure the bulbs are positioned and secured at the correct angle in the headlight.

### What is an LED adapter ring?

Almost every car model has a different type of socket for halogen bulbs. When upgrading your halogen bulbs with LED lighting, you may need an adapter ring to secure the LED lights inside the headlamp. All Philips H7XULED and H7UELED LED lights are supplied with the Standard Center ring. If another type of connector ring is needed, you can find the relevant ring type in the LED Adapter Rings Applications listings.

### Reliable quality.

Philips connector rings are made of durable metal, can handle high temperatures, and provide long-lasting performance. Tested in the toughest conditions, they're proven to withstand physical and thermal stress.

### Available in.

The Philips LED Adapter Rings are available for X-tremeUltinon H7 LED headlights in Type D, Type E, Type K, and Type P models. The Philips LED Adapter Kit includes multiple rings for both the X-tremeUltinon and for the Ultinon Essential H7 LED headlight.
